ENIKO + KEVIN HART x FABLETICS

"People who know me...really know that I've embraced and endorsed a healthy lifestyle. It's part of me. When I put my actions behind my words, it makes it so much more authentic."

- Kevin Hart

TEAM HART INSPIRATION

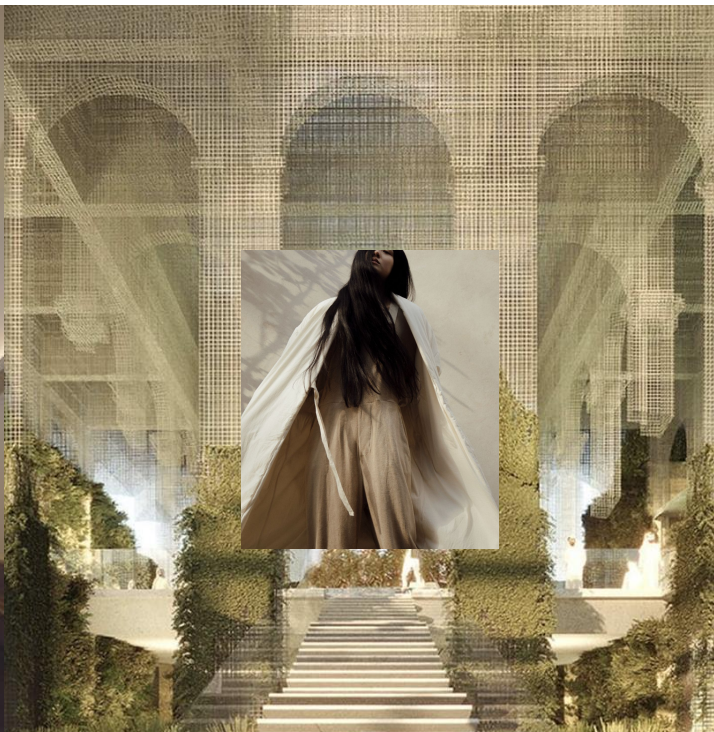

April 2021 marks the 2nd month of the first spring post the covid pandemic. People have started to shake off the hibernation of winter and spend more time outdoors, proceeding to do so with cautious optimism. The time of quarantine has caused us all to do some much-needed self reflection.

We have reprioritized our health and our families... and live our lives a little more simply, with greater intent.

INSPIRATION:

LUMINARY

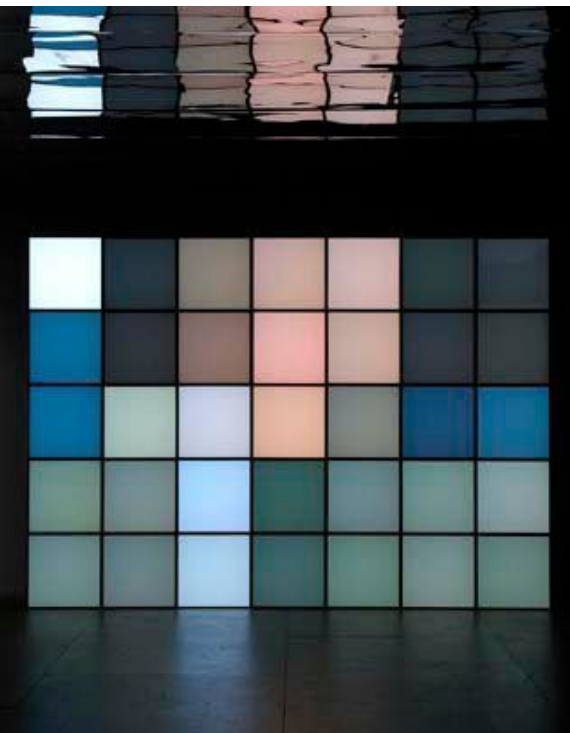

For many people, our recent past has become enlightening. It has allowed us time to tease apart the layers of stress and weight that has been holding us down. We embark on this “first spring” with a renewed sense of clarity holding light and shining brilliance to inspire and positively influences others.
